

## PRESS RELEASES

### Intelligent Decisions Sponsors ThanksUSA Golf Tournament to Support Military Families

*Tournament Raises Scholarship Funds for Spouses and Children of Service Members*

Ashburn, Va., April 21, 2008 – Intelligent Decisions, Inc., a leading Federal systems integrator and professional services company, today announced that it is the premier sponsor for the ThanksUSA Golf Tournament benefiting U.S. service members and their families. Taking place April 29, 2008 at Robert Trent Jones Golf Club in Gainesville, Va., the VIP golf tournament will raise funds to support ThanksUSA's scholarship program.

A non-partisan charitable effort designed to mobilize Americans of all ages to show their appreciation to the men and women of the United States armed forces, ThanksUSA awards children and spouses of service members with scholarships to help them attend college, technical, and vocational school. Ninety percent of the proceeds generated from the golf tournament will go directly to the scholarship program.

"Since starting the ThanksUSA scholarship program two years ago, we have awarded almost \$4 million in scholarships to military spouses and children," said Michele Stork, executive director, ThanksUSA. "A major factor in the organization's success is the generosity of our corporate donors, like Intelligent Decisions. With the support of Intelligent Decisions, we have been able to plan a fun, rewarding event that will help us generate thousands of dollars to give back to the military families who give so much to us."

"Our service members and their families sacrifice so much, and we are proud to join with ThanksUSA in honoring them," said Harry Martin, Jr., president and CEO of Intelligent Decisions. "Intelligent Decisions is committed to supporting and strengthening the U.S. military, whether through programs like ThanksUSA or by delivering comprehensive information technology solutions that enable achievement of critical mission objectives."
