Intelligent Decisions' President Harry Martin Joins ThanksUSA's Board of Directors

WASHINGTON, November X, 2008 – ThanksUSA, a charitable effort to mobilize Americans to “thank” the nation’s active-duty troops, today announced that Harry Martin, Jr., president and chief executive officer of Intelligent Decisions, recently joined their board of directors.

“Harry Martin is a visionary leader of Intelligent Decisions, and we are pleased to welcome him as a new member of our Board of Directors,” said Bob Okun, chief executive officer, ThanksUSA. “He’s been a great supporter of ThanksUSA in the past, and his insights and opinions will prove invaluable to our organization.”

“I am very pleased and honored to be offered a position on the Board of Directors at ThanksUSA. Last year was our first encounter with this organization, and immediately, I was taken by their passion, commitment and perseverance towards helping military personnel and their family members,” said Harry Martin, Jr. “This selfless, non-partisan charity asks for nothing in return and has captured the hearts of many. Serving on this board will allow me and Intelligent Decisions to further assist ThanksUSA.”

As founder, president and CEO of Intelligent Decisions, Harry Martin, Jr. has grown the company into a leading solutions provider serving federal, state and local governments and Fortune 1,000 customers. Intelligent Decisions served as the presenting sponsor of ThanksUSA’s charity golf tournament last spring.

An active participant in professional, charitable and civic associations, Mr. Martin has been recognized throughout the industry for his entrepreneurial vision. Instilling a strong sense of corporate responsibility is a cornerstone of the culture Mr. Martin has developed at Intelligent Decisions. Under his direction, a company-wide Community Outreach program was launched to support the communities where Martin and the employees of Intelligent Decisions live and work. The program focuses on children, education, veterans’ affairs and human services.

Mr. Martin holds Bachelor of Science Degrees in Engineering and Mathematics from Howard University.
